JOHNSON SYSTEMS INC. AWARDED DEVELOPMENT GRANT

Alberta Innovates has approved a Voucher grant for Presidor™ Development

CALGARY, Alberta, January 11, 2018– JOHNSON SYSTEMS INC. (JSI), an archtainment lighting control company, announced today that it has been approved for a Voucher Grant from Alberta Innovates. This grant will allow for the completed development of the **Presidor™ LED Dimmer and Controller**, UL Certification and an initial Marketing Assessment for European Commercialization and Expansion.

*“Having Alberta Innovates come along side Johnson Systems and provide us the means to expedite the completion of **Presidor™** will allow us to exponentially speed up the commercialization of a product that our industry is in desperate need of”, says founder and CEO Shaun Johnson.*

Presidor™ will provide a ‘next generation’ solution for customers wishing to easily and quickly upgrade their existing lighting to energy and cost saving LED’s at a fraction of the cost of new installations. This ultra green, extremely energy efficient control system is expected to be introduced to the world at the October LDI 2018 trade show in Las Vegas, Nevada.

For over 30 years, Johnson Systems Inc. has provided state of the art, retrofit lighting solutions to museums, auditoriums, theatres, conference centres, theme parks and more.
